Full job description

- Develop and implement accrediting processes
- Join Australia's first national data regulator

About Our Client

Our client is a part of Australia's first national data regulator in the public sector. Sitting under a major government department, this is an exciting opportunity to contribute to Australian data security.

Job Description

- Develop and implement processes and guidance material for the new data scheme
- Produce policy analysis and advice
- Maintain and develop positive relationships with internal and external stakeholders
- draft and coordinate Ministerial and committee briefing material
- Assist in the development of an accreditation process
- Assess applications from entities to become accredited users

The Successful Applicant

The successful candidate will have a sound understanding of implementing legislative schemes, and have experience in developing processes and guidance material.

What's on Offer

- Attractive remuneration + 15.4% super
- 12-month non-ongoing offer with the potential for further extensions
- Contribute to upholding Australia's data security
- Join Australia's first ever national-data regulator within the government.
