Skills

PROJECT MANAGEMENT

Full job description

Your new company

This is an exciting opportunity to join an expanding Consulting Organisation specialising in defence related contracts. They are currently searching for a technical engineering lead on an exciting and large acquisition program.

Your new role

As the Project Engineering Lead, you will work directly with the Director and Project Manager on the Program to support the contractual development and technical aspects to customer approvals. You will develop documentation such as Engineering Management Plans, Workforce Plans and Evaluation Master Plans in regards to Project Delivery. You will lead the technical development, provide functional input, and contribute to innovative solutions and continuous improvement.

What you'll need to succeed

- Bachelor Degree Qualifications in Engineering coupled with Engineering Procurement knowledge.
- Leadership experience ideally in a Defence Engineering Projects environment
- Excellent communication skills, and the ability to engage and influence key stakeholders
- An understanding of the Defence Capabilities Lifecycle
- Ideally a current Australian Defence Clearance of NV1, or one able to be immediately reinstated

What you'll get in return

You will join an excellent and secure organisation that offers growth opportunities and the chance to work across varying Defence Programs in the
